

Task: make a recording....	Listening back: what happened? Is the recording usable? Easy to understand?
...with levels around zero on the meter	
... with the levels very low (-30 or so)	
... with levels around -12	
... in an echoey place (stairwell? bathroom?)	
... on the street or somewhere with background noise	
... in a small room?	
... with a group of people talking together	
... with two people having a non-interrupted conversation
